

ROMAN LOBKO

🏠 Norway, Oslo

☎ +4793944025

✉ roomen817@gmail.com

Ambitious self-taught software developer with experience in both backend and frontend development. Very curious and quick to learn new technologies and concepts. I appreciate teamwork, always happy to help others, as well as to learn from my colleagues. Creative problem solver, experienced in creating clean and reusable code for client-server applications.

SKILLS

Java Core	Kotlin
Spring Boot with	Flyway
Data, Web, Security, JPA	Spring Security
PostgreSQL	Real-time Interpreting
Docker Compose	Interpersonal Communications
React.js

EXPERIENCE

Full Stack Developer

jan. 2024 - now

Romny Veteran Support, Romny, Ukraine (remote)

'Romny Veteran Support' - is an organization that helps former soldiers and veterans reintegrate into society. I am fully developing and continuously updating a website with all underlying infrastructure. Main stack is Java + Spring Boot, PostgreSQL for REST API and React.js for frontend with additional tools like Flyway for database migrations, as an example.

Interpreter for Public Services

feb. 2024 - now

Tolkenett & HeroTolk, Norway

Currently working at two agencies and providing oral real-time interpretations mainly for public services and healthcare institutions. Languages used in the job are Ukrainian, Russian, English and Norwegian.

Office Manager Assistant

mar. 2023 - aug. 2023

Bain & Company, Oslo

Worked well in a team and provided support and guidance to colleagues, as well as ensured overall order at the workplace. Had helped the office manager with everyday tasks and duties.
